

## Scottish Ambulance Service Information Assets Register.

This Information Asset Register is a catalogue of the Scottish Ambulance Service's **unpublished** information assets that anyone can access in order to identify;

- what information the organisation holds
- how useful that information is, and
- a contact point to whom requests for the underlying information may be made; **requests would be subject to the Freedom Of Information (Scotland) Act 2002 provisions.**

A **published** asset is any information that is published routinely (via our web site) and updated as required. In the case of the Scottish Ambulance Service the only published material are Board minutes and papers listed on the our website <http://www.scottishambulance.com>

It is important to note that the Information Asset Register will **not** provide direct access to the information listed but is a means of alerting you to the existence of the types unpublished information available and whom to contact.

To make a request for information see the contact details on the individual register item.
